### Conference topics

SEC-2010 is the 25th in a series of well-established international conferences on Security and Privacy organized annually by the Technical Committee 11 (TC-11) of IFIP. In 2010 it is part of the IFIP World Congress celebrating both the Golden Jubilee of IFIP and the Silver Jubilee of SEC. Papers offering novel and mature research contributions, in any aspect of information security and privacy, are solicited for submission to the conference. Papers may present theory, applications, or practical experiences on topics including but not limited to:

Access Control

Anonymity

Applications of Cryptography

Attacks and Malicious Software

Authentication and Authorization

Biometrics and Applications

Critical ICT Resources Protection

Data and Systems Integrity

Data Protection

ECommerce Privacy & Security

Enterprise Security

Identity Management

Information Hiding

Information Warfare

Internet and Web Security

Intrusion Detection

Mobile Computing Security

Mobile Networks Security

Network Security Protocols

Multilateral Security

Peer-to-Peer Security

Privacy Enhancing Technologies

RFID Privacy & Security

Risk Analysis and Management

Secure Electronic Voting

## Important dates

Submission of papers: 31 January 2010  
 Notification to authors: 23 April 2010  
 Camera-ready copies: 15 May 2010

## Instructions for paper submission

- Papers must not substantially overlap with papers that have been published or are simultaneously submitted to a journal or another conference with proceedings.
- Papers must be written in English; they should be at most 12 pages in total, including bibliography and well-marked appendices. Papers should be intelligible without appendices, if any.
- Accepted papers will be presented at the conference and published in the IFIP AICT (Advances in Information and Communication Technology) Series by Springer.
- Submitted and accepted papers must follow the publisher's guidelines for the IFIP AICT Series ([www.springer.com/series/6102](http://www.springer.com/series/6102), Author templates).
- At least one author of each accepted paper must register for the conference and present the paper. Inclusion of the paper will be dependent upon one registration for the paper.
- All papers must be submitted in electronic form through the web via [www.sec2010.org](http://www.sec2010.org) by January 31, 2010.

## The Congress

The World Computer Congress (WCC2010) will bring together IT research and industry sectors in one event. The congress will combine 17 IFIP conferences with partner conferences from other international and regional, specialist IT organisations.

The conference content will be presented in eight program streams. Delegates may attend any of the participating conference, industry or partner events as well as networking, social, technical tours and certification courses offered at the congress.
