ICT for Sport & Fitness

The role ICT plays in Sport is growing and this was recognized by IFIP by endorsing in 2002 an initiative to investigate the matter.

The WCC 2008 organizers are pleased to take this initiative a step further by holding a cross-session on ICT for Sport & Fitness http://www.wcc2008.org/site/crosssession.php?id_cs=4&#detail coordinated by Remo Lombardo, Microcomputer and Biomedical Instrumentation Laboratory, University of Pavia.

Main topics include

- Instrumentation to evaluate sport biomechanics and new soccer shoes
- Demos and Exhibits on wireless techniques to measure biomechanical parameters of athletes
- New typologies of athletic shoes

Among the scheduled speakers are

- Axel Kalpen, Head of Biomechanics Laboratory, Novel GmbH, Munich
- Antonio Armeni, President of the Italian Football Committee for Sport Plants LND-F.I.G.C.
- Elena Castellini, Laboratory of Training Methodology Biomechanics applied to sport, Technical sector F.I.G.C. – Coverciano, Italy.

Our dedication to promote ICT in sport and fitness does not end with the cross-session. To advance this activity we are pleased to offer the following 20th WCC Competition related to the European Football Championship '08 - www.euro2008.uefa.com. Check the 16 teams, which have qualified for the finals and make your forecast for the following:

- 1. Which 2 teams will play the Final on 29 June in Vienna**
- 2. The EURO2008 Winner and the score of the Final match**

Please send your emails with your forecast to linda.borsani@aicanet.it by 14 June latest!

Eligible to take part in this competition are WCC 2008 participants who have registered and transferred their registration fees by 14 June.

The winner will be reimbursed by AICA during the Congress in Milano for the Congress registration fee. In case several provide correct forecasts a draw will be organized to select the winner.

A reduction of 15% on registration fees applies to everyone who registers before 30 June.

Good luck and see you in Milano,

AICA
